

WONDERS & HIDDEN TREASURES OF THE UNIVERSE

DOCUBOX
HD

CHANNEL DESCRIPTION

DOCUBOX is a truly dedicated documentary channel that brings a stunning selection of extraordinary stories crafted by life itself.

- WILDLIFE • PEOPLE AND CULTURE
- BIOGRAPHY • TECHNOLOGY • HISTORY •
- TRAVEL • SCIENCE AND ENVIRONMENT
- NATURE • CURRENT AFFAIRS

Available in **HD** format.

CHANNEL PROGRAMMING

A rich collection of fascinating documentary and factual series that explores all the different cultures, beauties and wonders of our world.

CHANNEL LIBRARY

Over **1250 hours** of programming and over **250 hours of new programs** a year.

MAJOR DISTRIBUTORS:

Arte, Terranova, Ampersand, Canal 13, French Television, Canamedia, Ananda, Storyteller, Earth Touch, Fusion TV, LGI Media

WILDLIFE

WILDLIFE DESTINATION WILDERNESS

Embark on five thrilling adventures into the wild and explore the most extraordinary landscapes as you are led through water, ice, rocks and fire alongside expedition leader and great undersea explorer Francis Le Guen and his team.

WILDLIFE

WILDLIFE ANIMAL STRATEGIES

Animals had to develop behaviours and techniques in order to address vital requirements such as nutrition, **reproduction, raising the young,** protection and, more generally, **adaptation to a sometimes** hostile environment.

ANIMAL STRATEGIES shows us how primates, antelopes, small animals, big predators and even some birds live, **cope, survive and interact in the wild** theatre that is their world.

PEOPLE & CULTURE

PEOPLE & CULTURE

STREET FOOTBALL IN MY COUNTRY

Street Football is a worldwide phenomenon that can be played by anyone, no matter their age, their gender or where they come from. It can be played anywhere, no need for a stadium, white lines, green grasses or even shoes! In each episode of these series we take you to an emerging country where Football has become a way of helping children and bringing hope by life changing their habits.

Discover the attaching portraits of these children that might one day become some of the greatest players in the world just like before them C. Ronaldo, Messi, Neymar and so many others.

BIOGRAPHY

BIOGRAPHY

LAGERFELD:

THE KAISER OF FASHION

A biography of the controversial fashion savant, creator of extraordinary fashion show sets, renowned photographer, and author of breathtaking books.

Lagerfeld is the quintessential renaissance man.

SCIENCE & TECHNOLOGY

SCIENCE & TECHNOLOGY ON THE YETI TRAIL

For the first time in over a century, the sometimes far-fetched Yeti legends and personal accounts have become the subject of state-of-the-art scientific studies. Several teams throughout the world, in Denmark, England, the US and Russia are carrying out a merciless competition to be the first to publish the revolutionary results – proof that another hominid, with very ancient roots, shares our existence. Does the Yeti really exist? Our film sets out to meet the teams involved in this strange race across the world, and features laboratories, hair analysis, footprints and DNA as well as the search for samples in Indonesia and in Canadian nature reserves. A fascinating and thorough film, featuring, amongst others, French Collège de France paleoanthropologist Pascal Picq.

SCIENCE & TECHNOLOGY

SCIENCE & TECHNOLOGY ALIEN LIFE AND WHERE TO FIND IT

ALIEN LIFE is a cutting edge scientific documentary uncovering the latest developments in astro-biological research which leads to the first ever CGI creation of what alien life looks like. Every day scientists discover more and more about life, not only outside of our planet but on it as well. Using this new research astro-biologists are able to deduce not only where life may be found but also, what it will look like. This documentary walks through the process for discovering planets across the universe and how uncovering new information leads to greater understanding of life, not only Earth but on other planets too. For the first time ever this research has been used to digitally create a lifelike representation of alien life.

TRAVEL

OUTTA TOWN ADVENTURES

Out of Town Adventures travels both near and far to discover the best adventures the destinations have to offer. Season 1 visits attractions from California to Rwanda, Switzerland, Iceland, Utah, Zambia, Mexico, The Grand Canyon, Georgia, (the Eastern European one!) Louisiana, Hawaii, Mauritius and Seychelles. This TV series is dedicated to presenting history, culture and geography in a fun and positive way. It encourages people to explore this beautiful world - something that starts with simply getting out of town!

TRAVEL

TRAVEL TRAVEL QUEST

Bill Ball breaks the rules and stereotypes of travel shows as he ventures beyond the highlights. What do you do after you've lead groups to over 140 countries and all 7 continents?

Welcome to Bill's bucket list on steroids... Travel Quest This new, fast-paced series chases Bill around the globe as he seeks out anything but the mundane and ordinary—coming face-to-face with the largest crocodiles in the world, snorkeling with thousands of jellyfish, walking on the rim of an exploding volcano, feeding a group of sharks without a cage, bicycling across the Serengeti... this is not your typical travel show!

NATURE

NATURE

THE MAN WHO SKIED DOWN EVEREST

This Oscar-winning documentary tells the story behind Japanese daredevil Yuichiro Miura's 1970 effort to ski down the world's tallest mountain. Miura's trek to the top of Everest provides much of the film's drama, as several members of his climbing team die in the process. The arduous trek gives way to footage of Miura's stunning descent, which requires him to use a parachute to control his speed. The action is supplemented by passages from the journal Miura kept during the adventure.

CURRENT AFFAIRS

CURRENT AFFAIRS

DEPLETED URANIUM A VERY PRESENTABLE KILLER

More than 50 countries now possess weapons based on depleted uranium (DU). Experimentation has been rife, and the consequences for civilians and the military alike have been dramatic. This investigation compares and contrasts the arguments of those who defend and attack a technology that is highly toxic. For 20 years, scientists, doctors, veterans and activists have denounced the use of DU. Against them are the arms industry lobbyists and nuclear authorities who continue to minimise the risks. Through archive documents, interviews and in situ investigations, accompanied by key witnesses (victims, experts...) we aim to present a clearer picture of the issues and stakes linked to the use of DU. Quick-paced, with a sense of urgency, the film underlines the essential background and conflicting viewpoints, enabling viewers to make up their own minds about a subject that concerns us all.

HISTORY

HISTORY TRAFALGAR

The greatest navel battle in history, entirely recreated in computer-generated images : a grandiose documentary spectacle that takes us as close to historical reality as possible. Thanks to a technological process blending real settings, costumed actors and virtual images, this absolutely unique docufiction relates the Battle of Trafalgar, which brought together 60 ships, 35 000 men and more than 5 000 cannon. A legendary epic, recounted by the author of the French defeat, Admiral Villeneuve, with light shed by international experts. Award of the Research & Innovation Section at the 2007 HD Film Festival (Paris, France).

ENVIRONMENT

ENVIRONMENT BIOTIFUL PLANET

A nine-part series on the treasures of France's overseas territories. The French overseas territories are a treasure trove of biodiversity. In a total surface area ten times smaller than France itself, we find more endemic species than in all of Europe. The question is for how much longer? The extraordinary natural richness of these territories is nevertheless extremely fragile.

Our anchors invite us along on a biological treasure hunt that's also an opportunity to take stock of the situation. It's one adventure and surprise after another as we meet the men and women fighting out in the field for biodiversity conservation: leatherback turtle observation, whale-watching, protecting the coral reefs and tropical forests by setting up natural reserves...

Episodes: Madagascar, Mozambique, French Polynesia, the Indian ocean, French, Guyana, Congo, St Pierre et Miquelon, New Caledonia, West Indies.
